Tripadvisor

We love to share with you craft wines, beers, cocktails & food, especially from the european southwestern countries (Italy, France & Spain), although we still love traveling. You'll can dicover other cultures details also.

We enjoy enriching the apparent simplicity of or menu. We do everything like around the house, in order that make you feel like in your home but travelling a little. We take care of using most of our fresh products local or national, some of them organic, sustainable, and we bring fermented foods from Italy and France. The concept is to use products from over here, with the ideas from over there, as if they were prepared at home.

We are looking for creating a different well-being place to disconnect and reconnect with friends, alone or with family around a traveler's table. We deeply believe that in order to provide a quality service, is mandatory we take the responsibility to creat the appropriated conditions to take care of the people we works in the service sector in order to take care of you with an hospitable smile that risen from inside.

We pursue the vision of the hospitality of the future, healthier and more sustainable in every sense and for all actors involved, inside & outside.
